

THE ROTARY FOUNDATION

Dear Rotary Leaders,

It is really heartening to note that The Rotary Foundation has prospered in India and has reached a pinnacle that once seemed to be unattainable. The credit goes to the multitude of dedicated and committed leaders like you, who have toiled hard to make this possible. Last year, we surpassed all expectations and this year much more is expected from us. We were No: 3 in contribution the world over and the No: 2 place awaits us. Renewed and re-doubled efforts are necessary to achieve this goal. Even if we do not reach the No.2 position, we must at least surpass the figures of last year and this is only possible if we continue our efforts ceaselessly. India is one of the largest beneficiaries of The Rotary Foundation and if we can show that we are grateful for the benefits, we must also show that we will leave no stone unturned to reciprocate our gratitude. There are a large number of Rotary leaders in India who are very actively engaged in promoting The Rotary Foundation and there are coordinators and counselors who put in their best to spread awareness amongst Rotarians. It is now time to respond, refurbish and strengthen The Rotary Foundation.

Let us all, in unison, ensure that The Rotary Foundation continues to be one of our prime concerns and let us, together Make our Dreams Real.

I count on you. I know you will make it happen. All the best.

*Rtn. Ashok Mahajan
Director, Rotary International*
