

Go anywhere from here

Once upon a time it was nearly impossible to go around the world. Then someone did it. Once upon a time it was impossible to talk to people living in far off places and in other countries. Then someone found a solution. Once upon a time it was not possible to see what was happening elsewhere. Then someone invented the television. Once upon a time travel in space was impossible. Then someone did it and also landed on the moon. Once upon a time people thought that eradicating polio was impossible. Rotary showed it was possible. Again, once upon a time there

was a feeling that it was impossible to solve most of the problems that people faced in this world. The Rotary Foundation reached out to the people and started making lives better, slowly but steadily.

Now we know that impossible only meant that a solution was not found at that point of time. If we consider that achieving something is impossible, it reflects our capability. Actually it is a kind of fun to achieve what we think is impossible. The positive thinker sees the invisible, feels the intangible, and achieves the impossible. We have to act as if it was impossible to fail.

Napoleon Bonaparte said, "The word impossible is not in my dictionary." This is the spirit that is needed in all the Rotarians. When

people see us take up a challenge and win, then they join us as crusaders for the next challenge. The membership of your club will grow when people see that they can be a part of an 'achiever's group.'

No one ever moves forward unless he accomplishes the impossible. When The Rotary

are under its umbrella. Literacy projects, water management, youth development, micro-credit schemes, vocational service projects, health care, rehabilitation projects, scholarships, group study exchanges, polio eradication, reducing child mortality, the list is endless.

Faith in ourselves and in The

Rotary Foundation to make our dreams real is the first step. Faith is the first and foremost quality needed in the area of service. When we joined Rotary we decided to devote our life to service. Without it, nothing is possible. With it nothing is impossible.

"Everything is possible, if you can have fun doing it"

Foundation was started, it began with a vision that solving the gigantic problems in this earth was possible. It started with a small paltry sum of money and today it has grown into a reputed organisation that has the courage to talk about bringing in world peace! The Trustees of The Rotary Foundation did not think that peace was not possible. Their slogan was 'Peace is Possible.' When The Rotary Foundation committed its financial resources to educate peace scholars, it knew that the goal is very high, but possible.

What was once impossible becomes possible when someone does it first. The Rotary Foundation has many 'firsts' to its credit. Just see the variety of programmes that

With The Rotary Foundation we can go anywhere and accomplish great things that we once thought was impossible for us to achieve. The Rotary Foundation is the organisation that builds your determination to achieve the impossible. Support The Rotary Foundation. Give it your talent and resources. The programme of The Rotary Foundation expresses that which cannot be said by you but about which it is impossible for you to be silent.
